## ABOUT THE EVENT

We are pleased to invite you to our upcoming **Health and Safety Forum – a joint event by EVH and ACS**. This exclusive session is designed to provide valuable insights, comprehensive support, and guidance on the latest regulations, legislation, and best practices for housing associations in Scotland. With an increased focus on landlord and tenant health and safety in the housing sector, many organisations find themselves unsure of what they need to do to ensure, maintain and demonstrate compliance with their legal requirements as a landlord. Therefore, we are hosting our next forum on the topic of:

### **Landlord Health & Safety: Ensuring and Maintaining Compliance**

This will be an informative forum that includes practical tips, ideas and strategies for achieving compliance with your legal responsibilities as a landlord, maintaining compliance and ensuring that you can evidence this. This session is free, and we encourage you to take advantage of this unique opportunity to connect with fellow EVH members through our engaging group activity.

These H&S Forums are a valuable opportunity that allow attendees to network and receive support and advice from ACS, EVH and other EVH members.

Note that numbers for this session are limited. To book please complete the booking form and return to [Events@evh.org.uk](mailto:Events@evh.org.uk) or phone **0141 352 7435** with any queries or requests for further information.

## TOPICS COVERED

### **The Forum Will Include:**

- What are your legal responsibilities as a landlord and how can you ensure you comply with them?
- Focus on key topic areas such as asbestos, legionella, fire, damp and mould, lifts, electricity and gas.
- How can you evidence that you are complying with your requirements and how do you report on this to the Scottish Housing Regulator?
- How do you keep tenants and residents safe?

### **Practical Element - Group Work**

Engage in group discussions delving into real-world scenarios and the practicalities of ensuring, maintaining and evidencing compliance.

### **Ask the Experts: Your Health & Safety Queries Answered**

Participate in dynamic discussions during the forum where our expert panel will address any questions you may have.
