

Today's typical workplace can include five different generations working together, bringing varying expectations, challenges and opportunities for employers and their workers/volunteers. Join us at DoubleTree by Hilton, Dunblane Hydro in May for our Annual Conference to hear from our fabulous line up of speakers who will share their knowledge and insights of the year's theme the generation game. We encourage governing body, management and staff team members to come along as there is something for everyone.

This week we are thrilled to announce 3 fantastic additions to our speakers line up which already includes CEO of Scottish Care, Dr Donald Macaskill and TV & Radio Presenter Des Clarke.

As renowned figures in the world of Health and Safety we are delighted to have Professor Roger Willey and Emma Willey from ACS joining us to discuss the changes to Health & Safety through the generations.

Also Gordon Robb, Director of VR Growth will be exploring the impact generational gaps can have on communication in his workshop session. He will look at how communication works normally, how generational gaps can make this worse, and what can be done to mitigate the impact of this.

**It'll be nice
to see you,
to see you...**

If you are new to our conference, we think it worth mentioning that we never miss the opportunity to provide some first-class entertainment and networking too across the weekend.

EVH know that budgets are tight and once again are keeping costs low, genuinely bringing you the best possible value for your money. Single rooms are £785 per person and double/twin rooms are £685 per person. See booking form for all the details.
