Sexual Harassment The New Law in Practice (member only event)

With new legislation coming into effect on 26th October 2024, EVH is inviting you to join us to learn more about the new law and what you, as an employer, can do to ensure your employees are protected from harassment, in general, and more particularly sexual harassment.

During this session delegates will hear more about how to comply with the new legislation, understand what procedures to put in place to reduce the risk of harassment happening, and have a practical take away on how to handle a situation should it arise. This session will include groupwork, sharing of best practice and lots of opportunity to ask questions.

EVH will be using this platform to share our updated resources on this topic along with discussion on how organisations can tailor these for their local settings.

The session is aimed at senior officers and staff with responsibility for the HR or corporate services function in the organisation.
