

Health & Safety Forum Risk Assessments in Practice

Our H&S Forums are a valuable opportunity where members receive support and advice from ACS and EVH, whilst networking with other EVH members. Join us for our next quarterly H&S Forum covering Risk Assessments in Practice.

Risk Assessments are not only a legal requirement for employers to complete, but are also a vital tool to help prevent accidents at work, reduce injuries, generate awareness of hazards and help managers make decisions on risk and any adjustments required.

FORUM CONTENT

- Overview of common failures in risk assessments
- What “suitable and sufficient” really looks like
- Practical examples of improving risk assessment quality

The session will be led by Emma Willey and Angela Johnson from ACS Learning & Consultancy and is aimed at any staff or management with responsibility for health and safety.

TIMING

9.30am – 12.30pm

COSTS

This is a FREE session for all EVH members.
