

## Association's Unite to Assist Tenants

Following a successful application to the Social Housing Fuel Support Fund, Dalmuir Park Housing Association (DPHA), in partnership with Trafalgar Housing Association are currently rolling out items to support the delivery of energy efficient measures including small appliances and essential warmth items. The huge grant of £27,305 will see air fryers, slow cookers, bedding and curtains distributed to almost 300 tenants combined, between both Associations.

Gary Earl, DPHA Finance Officer who is responsible for leading the project said, "We are now in the final stages of planning to deliver such a crucial project for our tenants and tenants of Trafalgar HA. This grant will allow both Association's to assist tenants through difficult times, primarily providing energy efficient measures in turn allowing households to reduce energy bills over a prolonged period where energy prices are at an all-time high".

The roll out will begin and conclude in March 2024.
